NEW WESTMINSTER, SATURDAY, FEB. 7.

COMMERCIAL IMPORTANCE OF BRITISH COL. UMBIA.

IMPORTS IN 1862.

It is to be regretted that full returns, similar to those which are from time to time given to the public in the mother country, and in most of our Colonies, are not published in British Columbia. From well authenticated statistics the enquirer in other lands could judge of our progress and capabilities far more readily, and with greater correctness than by reading through such trashy publications as those written by Dr. Rattray, Messrs. Macdonald, Pemberton, and others, whose works have evidently (like the man's razors) been made to sell.

A comparison of our last year's imports with those of the preceding year will gratify every one who feels an interest in the progress and material prosperity of this young Colony. The total value of the goods imported in 1861 was \$1,414,399. Last year the imports rose to \$2,800,840, being an increase of \$1,386,441, or upwards of 98 per cent. Few Colonies can boast of a more rapid increase than this. And yet we have not overrated; on the contrary our stocks are low, indeed barely sufficient to support our present population until our spring supplies arrive.

The detailed returns which would have enabled us to compare the value of each particular article imported in 1861 and 1862, not having been published, we are unable to make so thorough an analysis of our commerce as we could have wished. We, however, take it for granted that the increase has occurred upon almost every article imported, with but few exceptions, which we shall proceed to name. Coal, which, owing to want of capital to work our own coal fields, we have up to the present time imported, has not been received in such quantities as previously, for the number of men who have been employed in cutting wood for fuel this winter, and the mildness of the season have caused the demand for Coal to decline. Potatoes and other vegetables, having been grown in larger quantities, has tended to check importations. Spirits have come forward in smaller quantities, in consequence of our local distilleries supplying an article as good, if not superior, to that imported. Doubtless in other cases our local industry has checked the importation of various articles; but the absence of the invaluable tables to which we have referred prevents us from adding to our list of instances.

Of the total imports in 1862, \$2,013,000 or about five-sevenths were received via Victoria; goods to the amount of \$787,840 being imported direct from the United States. It will thus be seen that Victoria is but little better than a temporary forwarding station for British Columbia; for notwithstanding its much-talked-of trade with California, Oregon, Washington Territory, Sandwich Islands, &c., and its supply of the Navy, and the said-to-be large population of Victoria, yet it exports to us to the amount of \$2,013,000 out of a total of imports, as given by its own paper, the *Colonist*, of \$3,555,477, or about four-sevenths of the whole; thus leaving but \$1,542,477 of imports to supply their own consumption, and to carry on the gigantic trade of the boasted emporium of the Pacific! Verily, if it were not that we feel that Victoria has been bolstered up and enriched unjustly at the expense of this Colony, we should laugh most heartily at the absurd and bombastic pretensions of our little Island neighbor.

We need no such forwarding station; and we shall very shortly dispense with it. The opinions of such practical men as Capt. Richards, R. N., and Capt. Wells, of the Pacific Mail Steam Ship Company, will prevail over the rapid ravings of such ignoramus (commercially) as Dr. Rattray and Land Surveyors Pemberton and Macdonald. When that day arrives, and it is rapidly approaching, goods will be imported direct at a saving upon the existing arrangement of not less than fifteen per cent. to say nothing of the saving in time and damage in transshipment. Any vessel which has yet made its appearance in this portion of the globe could have sailed up our magnificent river without the slightest difficulty, and have discharged her cargo at our wharves. Had our imports and the increase to our population arrived direct instead of via Victoria last year it would have prevented an unnecessary outlay of at least \$400,000. This foolish system must be abandoned. Let our fellow colonists work unitedly and systematically for the one great object of direct trade, with other ports, and nothing will be able to mar our future prosperity and greatness.

THE ATTENTION OF SHIPPERS AND PASSENGERS

is particularly directed to the superior

facilities the Royal Mail Steam Packet Company's Line

affords for the speedy conveyance of Treasure, Goods

and Passengers to and from England to British Colum-

bia and Vancouver Island, in connection with the

PACIFIC MAIL STEAMSHIP COMPANY'S VESSELS and the

PANAMA RAILROAD.

The superiority of the accommodation and entertain-

ment on board the Royal Mail Steamers, together with

the time occupied on the passage between England and

any other route, and the moderate rate of passage money,

render this Company's steamers the CHEAPEST and

MOST EXPEDITIOUS MEANS OF TRANSIT for pas-

sengers or for the forwarding of Goods and Treasure

from Asia to Europe.

Under an arrangement with the PACIFIC MAIL

STEAMSHIP COMPANY, Specie and Bullion can be

conveyed to London and Havre in France.

NEW WESTMINSTER, SATURDAY, FEB. 7.

## THE ADMISSION OF BARRISTERS.

It is gratifying to see that our Island contemporaries are both on upon the close-comunion, illiberal policy adopted in these Colonies in respect of the admission of Barristers—or rather the exclusion of Colonial Barristers altogether—from our superior Courts. The *Chronicle* of the 1st inst., contains a very sensible article upon this subject, in which he shows how deservedly high the Upper Canada Bar stands; in what high estimation it is held even in England, proving that this exclusiveness cannot be justified upon the ground of any supposed inferiority in the professional status of Colonial Barristers. Inferiority indeed! With the greatest respect for our Barristers, how would they, or even his Lordship, compare with the Robinsons, the Camerons, the Boultons, the Wilsons, the Beechers, the Connors, of Upper Canada? But we can hardly suppose the solons of this and the sister Colony so profoundly ignorant with regard to the status of the Canadian Bar as to exclude them upon that ground. What is the ground then? Is it a mere prejudice against men who have been reared and educated in a British Colony? Or is it for the purpose of protecting a select clique (we refer more particularly to this Colony) to the great inconvenience and serious injury of the body politic? If the latter be the true reason, any Supreme Judge who would lend himself to such a piece of favoritism ought to be stripped of his ermine forthwith. If, however, Judge Begbie has a better reason, one that will stand the light of day, why does he not out with it? The people are directly interested in the matter, and unless a satisfactory reason can be given for the perpetration of so seemingly gross an injustice, depend upon it the people will not rest satisfied, and the press will give the responsible parties no rest until the abuse is removed.

The *Chronicle* records a very striking instance of the evil results of this policy in Victoria. We also in this Colony could point out cases of extreme hardship arising from the same cause. And in this respect we are even worse off than our neighbors, in that we have only three Barristers in this large Colony, one of whom, happening to be the Attorney General, is not unfrequently unavailable to litigents, and spends much of his time in the neighboring Colony where our absentee Governor resides. Mr. Walker has also frequent occasion to be in Victoria on professional business, and the consequence is we are left very much of the time with only Mr. Barnston. And our position in this respect is rendered all the more aggravating from the extraordinary circumstance which transpired at the last Assizes here; we allude to the withdrawal of the two ablest Barristers in these Colonies from our Courts on account of the series of gross insults heaped upon them during that session by Judge Begbie! Up to that time these gentlemen could be retained in the event of a suit of great moment, although at a much greater cost than if they resided in the Colony. But we can have recourse to them no longer. They have withdrawn in disgust from our Courts, in which they declare they can no longer disgrace themselves and their profession by practising! And in this respect we are in a much worse plight than our neighbors. They can call in our Barristers in an emergency; but the administration of Justice in this Colony has sunk so low that respectable Barristers in a neighboring Colony actually decline to practise in our Courts for love or money. Could disgrace be more complete? The Judge of our Superior Court insults Victoria Barristers so grossly that they are compelled to withdraw; he will only admit a select few to practise although there are others of talent seeking admission, and thus, surrounded with his little pet circle—family compact—he dispenses a thing that is labelled "Justice" in large gilt letters, but when closely analyzed turns out to be—

Such a state of things would be sufficiently alarming even if we were provided with an abundant supply of good Barristers; but when we come to be tied down to the two or three which it suits Mr. Begbie's purpose to admit, the thing is truly intolerable. With a good Judge, well versed in law and disposed to protect the rights of the poor man and stranger as well as the rich man and the intimate friend, the want of professional assistance would not be so keenly felt. But any one who attended the late Assizes must be convinced of the absurdity of going into Mr. Begbie's court without proper professional assistance, not only to instruct the Court as to what the law is, but to watch every turn

and every motion with a suspicious vigilance to ensure if possible the application of that law. If Judge Begbie intends donning the Judicial wig again in this Colony the very best thing he can do, as a sort of peace offering—as a simple act of justice—is to remove the barrier which excludes Colonial Barristers from our Superior Court.

## IMPORTANT TO WILLIAMS CREEK MINERS.

NOTICE IS HEREBY GIVEN that the undersigned will be prepared to furnish LUMBER of all descriptions suitable for Building, Flooring, Shingling, Riffles, &c., on Williams Creek and Jack of Clubs Creek, on or before the fifteenth of May, 1863, without delay, as they are erecting a Water Power Mill that will turn out from ten to fifteen thousand feet of Lumber per day. We hope by giving this timely notice that we may secure the trade and greatly benefit those who may favor us with their patronage, as we will be prepared to furnish Lumber at greatly reduced prices, which all men acquainted with the state of the business, as well as the Mining community, in a section of country where Lumber has up to the present time been sold at the enormous price of \$250.00 per thousand, owing entirely to the article having to be whip-sawed and labor commanding such high prices. With the use of this Mill we hope to place all parties wanting Lumber in possession of it immediately, thereby facilitating their mining operations greatly, knowing as all do that business as well as mining has been greatly retarded, from not being able to procure Lumber when most needed. And we hope with the aid of our Mill, together with the Williams Creek Ditch, which will be completed in time to furnish all with water in the Hill Claims and not interfere with the Creek Claims, also, the surplus waters of Jack of Clubs Creek and Ground Hog Lake turned over the divide into Williams Creek, will enable hundreds, if not thousands, who from the scarcity of water, without the aid of the above named ditches could not profitably do so, to work their Claims; also the great and beneficial influence which must inevitably accrue to all, both Hill and Creek Claims, from the great and costly bed-rock floor, being at present partly constructed, for the purpose of carrying off effectually the surplus waters of the surplus waters of Jack of Clubs and Ground Hog Lake waters flowing into Williams Creek and the great bed-rock Flume to carry everything through it, will not only prove of incalculable benefit to all, but place Williams Creek beyond the rivalry of any other mining locality in the Cariboo country.

#### Columbians! To the Rescue!

Hark to that wailing cry that here is borne,  
Across the heaving waters of the deep,  
With dirge-like pealing note, and mournful sweep,  
Breathing of direful plight and fatal doom.  
That cry for help! it soundeth yet more shrill,  
And urgently beseeching us to lend  
Our helping aid, from awful fate to free,  
Before tell want that mournful cry will still.  
Our brethren starve in fair Britannia's Isle!  
Our sisters pine in want, and mourning dread  
Their children's hungry gaze, who cry for bread:  
The mother cheers while hunger gnaws her side.

Say! will we brooding gaze, and coldly stand,  
Careless of children's plaints or mother's cry,  
Or mother's imploring looks and tearful eye,  
Heedless of her weak, wan, beckoning hand?

The pulsing, throbbing gush in man's breast  
Disdains to stagnate at want's dire appeals,  
But quicker, warmer flows, and keener feels  
The common bonds of kindred, closer pressed.

'Tis now our turn to prove, that is, to do  
Our utmost to relieve the pressing need  
Of distant kindred souls, who inward bleed,  
And cry, "Columbians! to the rescue!"

### THE WAR.

#### FIVE DAYS' LATER NEWS.

We are in receipt of news from the seat of war  
up to the 21st ult., perhaps the most interesting  
of which is an account of the interception of  
rebel dispatches, eight columns of which were pub-  
lished in the Washington *Intelligencer*, and which,  
if not a mere ruse of the enemy, exposes the pos-  
ition and plans of the Confederates. Amongst  
other papers is a letter from Benjamin Sidel, in  
which he sets down Federal losses up to that  
time at 350,000! But the most important por-  
tion of the correspondence is in reference to a  
scheme, believed to have its origin in Paris, by  
which the Federal Consuls at Galveston and  
Richmond seek to induce Texas to secede from  
the Confederacy, and establish an independent  
government. The result of this important dis-  
covery was the despatch of the Galveston Con-  
sul to Mexico. The Richmond Consul was also  
ordered to leave, but the order was subsequently  
rescinded. It also appears from these papers  
that the reception accorded to Commissioner  
Sidel by Earl Russell was anything but satisfac-  
tory, while Mason was complimented on his self-  
abnegation in overlooking the annoyances and  
coldness to which he was subjected by the British  
Secretary. They also refer to a financial  
scheme propounded by Meminger for raising  
money in England by the hypothecation of Con-  
federate cotton, and the plan for its transmission  
in British vessels. The utility of iron-clad ves-  
sels and the means by which they are to be pro-  
cured in England form the burden of this part of  
the interesting correspondence.

A Nashville dispatch records the most bar-  
barous atrocities connected with the burning of  
the steamer by Forrest. It has been ascertained  
that the rebels were making strenuous efforts to  
cut off Rosecrans' supplies and line of retreat  
and then crush him. It was expected that Long-  
street was about to attack him with his entire  
force, 60,000 strong; but that the former was  
quite prepared for him. An attack was made on  
Arkansas Post on Jan. 9th, which resulted in  
its capture. The land forces debarked below  
and marched to the rear of the fortifications, while  
the gunboats brought their ordnance to bear up-  
on their works with great effect. The attack  
lasted from Friday evening till Sunday afternoon  
when the land forces stormed the works, captur-  
ing eight regiments with considerable quantities  
of stores and ammunition. The Federal loss is  
put down at 300 to 400, while that of the enemy  
is stated to be 200 killed, wounded and missing,  
and 5000 prisoners; amongst the latter was  
Gen. Churchill, who was in command of the Post.  
Popular feeling in England is more friendly to  
the Northern cause, and has inspired confidence  
and a better feeling. The French Spoliation  
Bill for indemnifying American citizens for ille-  
gal captures prior to the treaty of 1800, and which  
has been before Congress for 20 years, was  
brought up. Richmond is represented as well  
fortified but weakly garrisoned, the main body  
of the army being midway between that city and  
Fredericksburg. A constitutional question had  
been raised in the House as to whether officers  
in the army could legally hold their seats. A  
resolution had been passed on the 20th declaring  
Vandever, the member for Iowa, not entitled to  
his seat, he being also a Colonel in the army.  
An appeal was made, and if not sustained a num-  
ber of seats will be declared vacant. The Vicks-  
burg expedition was being rapidly organized.  
McClelland was to be second in command, and  
the force was expected to reach one hundred  
thousand. Rebel officers being prisoners of war  
are not to be released on parole, on account of  
the refusal of the Confederates to come to any  
agreement for the release of Union prisoners con-  
fined in Southern jails. The Liverpool Chamber  
of Commerce have adopted a resolution to give  
a suitable reception to the officers of the first  
ship coming from America with provisions for the  
relief of distressed operatives, and to convey  
to the liberal donors their appreciation of their  
generous, friendly and spirited action. The Lon-

don Times has come out in the open advocacy of  
slavery upon Scriptural grounds, for which most  
of the English journals are bitterly indignant.  
The facts in the case of Gen. Stone are to be pub-  
lished shortly. The New York *World* of the  
20th says the Army of the Potomac is under  
marching orders with three days' rations. And  
a desperate struggle is believed to be near. The  
Alabama was reported off the coast of Cuba on  
the 28th Dec. A terrible earthquake had occur-  
red at Guatemala on the 9th Dec., destroying  
two towns, and other property. It is stated  
that great dissatisfaction prevails amongst the Con-  
federate troops. The men are worked day and  
night on half rations, and desertions are becom-  
ing very frequent. The Commissioner of Internal  
Revenue made his report to Congress on the  
19th. He calculates upon a revenue for the fiscal  
year 1863-64 of not less than \$150,000,000.

EUROPEAN dates are to the 11th Jan., but lack  
interest. Parliament met on the 5th. Sympa-  
thizing addresses to President Lincoln had been  
adopted in London and Birmingham. It was  
rumored that Napoleon intended recommending  
an armistice between the North and the South.

#### THE DOCTOR FOR ALL HOLLOWAY'S PILLS.

**CHEST COMPLAINTS.**  
No diseases are more frequent, few more dangerous,  
than affections of the respiratory organs. The first  
symptoms of catarrh, bronchitis, and influenza, may  
be radically removed by Holloway's renowned Pills.  
They quickly remedy any temporary stagnation of blood,  
relieve any overgrown veins, moderate the hurried  
breathing, and enable the lungs to do their office with  
ease and regularity. These Pills, by their purifying  
powers, cleanse the blood from all impurities, and for-  
tify the system against consumption, asthma, and simi-  
lar complaints.

**STOMACH, LIVER, KIDNEYS AND BOWELS.**  
From various causes these organs are frequently get-  
ting out of order, and require some suitable medicine  
to regulate them. Holloway's Pills effect this object  
with wonderful celerity and certainty. They do not  
distress the system or weaken the frame; they thor-  
oughly invigorate the digestive organs. They gently  
excite the stomach and liver, stimulate the kidneys to  
perform their functions efficiently, and act upon the  
bowels without griping or any other annoyance; again,  
taken an hour before dinner, they cannot be equalled as  
a "Dinner Pill," as they entirely prevent acidity, flatu-  
lency, nausea, and biliousness.

**WINDY OR WATERY DROPS.**  
Whoever is afflicted with these complaints, should at  
once have recourse to Holloway's Pills. They act most  
energetically on the glandular and absorbent system,  
purify the blood, and impart a vigour which age or other  
causes may have temporarily taken away. They excite  
the kidneys to increased activity, and thereby stimulate  
the absorbents to remove the fluid already collected.

**DISORDERS PECULIAR TO WOMEN.**  
There is no medicine equal to Holloway's Pills for  
correcting the ailments incidental to females. They  
may be taken with safety for any irregularity of the  
system. As they remove all cause of malady, and so  
restore, by their grand purifying properties, females of  
all ages to robust health.

**INFLUENZA, DIPHTHERIA AND SORE THROAT.**  
How all-important it is to check the first departure  
from health! All may do so by taking Holloway's Pills,  
without risk or restriction. In all diseases affecting the  
throat, nerves, and muscles, or in cases of fever, sore  
throat, colds, coughs, asthma, and shortness of breath,  
the earlier they are taken the better.

**CHILDREN'S COMPLAINTS.**  
Diseases incidental to children, such as feverish at-  
tacks, scarlet fever, measles, and all diseases of the skin,  
may be immediately checked, and soon cured, by these  
purifying Pills, which may be reduced to a powder, and  
given in doses of one, two, or three nightly, according  
to the age of the sufferer. Holloway's Ointment is  
soothing, cooling, and healing, and is better adapted  
than any other remedy for all external ailments.

**INDIGESTION, BILE AND SICK HEADACHES.**  
No organ in the human body is so liable to disorder  
as the liver, and none is more apt, when neglected, to  
become seriously diseased. When nausea, flatulency  
or acidity on the stomach, warns us that digestion is  
not proceeding properly, Holloway's Pills regulate every  
function, give strength to every organ, speedily remove  
all causes of indigestion, bile and sick headaches, and  
effect a permanent cure.

**LUMBAGO, RHEUMATISM AND GOUT.**  
In these diseases the blood is always in a highly in-  
flammatory state; the stomach is also disordered, and  
the liver and kidneys unnaturally torpid. A few doses  
of these Pills, taken in time, will rectify all these sym-  
ptoms by their cooling and purifying properties.

Holloway's Pills are the best remedy known in the world  
for the following diseases:—

#### EASE AND HEALTH TO THE SICK HOLLOWAY'S OINTMENT.

**DISEASES OF THE SKIN.**  
Universal approbation has been awarded to this  
Ointment for its efficiency in removing diseases of  
the skin. For scrofula, scurvy, acrid humors, and all  
eruptions of the skin, both in infancy and mature years,  
no remedy can be applied which so quickly cures as  
Holloway's Ointment. In the nursery, it should always  
be at hand to ease the many skin affections to which  
the majority of children are liable. In all heat and  
tooth-rashes, the Ointment is wonderfully cooling and  
curative. To soldiers, sailors, miners, and travellers in  
foreign lands, it is invaluable.

**SORES, WOUNDS, BAD BREASTS, BAD LEGS.**  
In this class of maladies, an improvement in the ap-  
pearance of the disease of the patient, follows the first  
dressing with the Ointment.  
It must not only be smeared on the wound, or sore,  
but be briskly rubbed for some inches round about the  
diseased swollen or painful parts. It will penetrate to  
the blood vessels, nerves, and muscles, and exert its  
power, and will exercise the most wholesome, healing,  
and purifying power over every tissue requisite for  
thorough reparation. The effect of the Ointment is in-  
creased by fomenting with warm water before the Ointment  
is rubbed in; but sores, when healing, should never be  
cleaned with sponge or anything else, as the young  
and new flesh which appears like a cream, would be  
washed away.

**BLOOD TO THE HEAD, APOPLEXY.**  
Nothing gives so much ease in these complaints from  
which so many suffer, as Holloway's cooling and heal-  
ing Ointment. When rubbed upon the spine it acts  
most energetically in drawing surplus blood from the  
brain; even to children in teething; this Ointment has  
a marvellous effect in preventing fits and convulsions,  
so often attendant on tooth-cutting. The Pills should  
be used according to the directions.

**RHEUMATISM, GOUT, STIFF JOINTS.**  
Every one suffering from these painful affections  
should use this purifying Ointment, as it has rescued  
thousands from a life of torture, after every other means  
had been tried in vain. The Ointment should be well  
rubbed into the skin at least twice a day, after it has  
been properly fomented with warm salt water, and dried.  
The inflammation soon yields, and the patient no longer  
helpless, resumes his accustomed occupation.

**GLANDULAR SWELLINGS, BRONCHITIS, MUMPS, SORE THROAT,  
AND DIPHTHERIA.**  
To combat these diseases with success, a remedy is  
required which will have the whole absorbent system  
under its control. Such a remedy is Holloway's Oint-  
ment, when rubbed on the skin; it penetrates to the  
glands, and removes any obstruction or impurity which  
may be impeding their healthy action. This Ointment  
acts on the very main spring of life, for through the  
glands pass all new matter required for the body's re-  
paration; in all the above class of cases, the Ointment  
and Pills used conjointly will act so searchingly, and  
certainly, as to effect cures in the most deplorable cases.

**FISTULAS AND PILES.**  
All inflammations and ulcerations of sensitive parts  
should be presently relieved, and ultimately cured, by the  
thorough use of this cooling and healing Ointment, aided  
twice daily by bathing the parts in cold water. It has  
mediate ease springs from this treatment; perseverance is  
necessary to effect a permanent cure.

**ASTHMA, SHORTNESS OF BREATH.**  
In these complaints the Ointment should be well rub-  
bed twice a day upon the chest, and between the shoul-  
ders; it will penetrate to the lungs, stimulate them to  
renewed exertions, prevent stagnation of blood, mod-  
erate the pulsations of the heart, regulate the current of  
air through the bronchial tubes, and thus effect a per-  
manent cure.

Both the Ointment and Pills should be used in the following  
cases:—

Bad Legs.	Chapped Hands.	Scalds.
Bad Breasts.	Contracted and	Sore Nipples.
Burns.	Skin Swellings.	Sore Throats.
Bunions.	Elephantiasis.	Skin Diseases.
